0.1 Login

#### Login Page

This page allows any staff member with the appropriate privileges to log in to the ChMS.

Usernames are either their Windows Domain network login or their @alcf.net email address.

For now, passwords are their Windows Domain network password. But future versions may need to consider non-Domain logins to be allowed into the back end system. And of course, if there is another application for the "Front-End" (e.g. congregation-facing), those would obviously require non-domain logins as well.

Note that for now there will be no "Forgot My Password" type of functionality. Any "Forgot My Password" issues should be directed to IT Support.

## ALCF Church Management System

## **ChMS Staff Login**

The ALCF ChMS is only for use by authorized ALCF Staff Members. Please log in using your ALCF username and password below.

If you forgot your login credentials, please contact IT support at it@alcf.net.

Username or Email:		
Password:		
	Log In	
		goes to Screen 1.1

This acts as the "Main Menu" for the entire admin-

It also includes two "quick search" options at the top of the page.

There are two roles for Staff Members who are

- using the ChMS Membership Subsystem:

   View-Only User (similar to Staff user, but without
- any edit privileges whatsoever)
- Staff User
- ChMS Administrator

For the most part, ChMS Administrators have the ability to add/delete other users, and also have the capability of setting permissions on each Staff User. Staff Users can have the following permissions set

- CanViewStewardship
- CanViewConfidentialNotes
- CanMergeIndividuals
- CanEditMembershipStatus

TODO: "Organization" or "Company" will need to be defined, in order to support organizations / companies that have financially given to ALCF in

The **Administration** button and tab (in the navbar) is only accessible to those ChMS Users that have this permission.

#### Search for an Individual

2.1 Search Individuals

This allows the user to search for an any individual

Each individual can be a membership status of

Member

- Child of Member
- Former Member None

Children may or may not necessarily have membership status. Note that for purposes of reporting, children of parents who are members would be considered a "member" when it comes to annual reports / totals.

Membership status cannot be manually assigned. Only users with CanEditMembershiStatus permission can specify a membership period for an individual, which will then update the calculation of "membership status" for that individual.

Reminder: Membership Status is based on the individual and not the household. So it is possible to have a household where one is a member and the other one is a non-member/tithe.

Columns can be sorted by any column in either ascending or descending order. By default, it is sorted by Last Name in ascending order.

Clicking any First or Last name for an individual will take the user to Screen 2.2 for that individual.

To ask Oom: currently we have some businesses in ACS due to a donation from a business, specifically. They are currently "individuals" in ACS.

View an Individual - General Profile Tab Sinale Household

This screen shows the details of any given individual in the system.

Depending on the type of individual, the screen the individual would show up on would be on one of the following wireframes:

- · Individual that is part of a multi-person household would be displayed on Screen 2.2
- Individual that is part of a single-person households (e.g. single person) would be displayed on Screen 2.2.1
- Individual that has no household record (e.g. no home address on file) would be displayed on Screen 2.2.1.1
- Individual that is part of multiple households would be displayed on **Screen 2.2.2**

Any fellow household members for all households that an individual belongs to is also listed on the

Individuals defined in a household are individuals with the same home address that are in the same family unit (one or two parents and their children or children that they are legal guardians of).

Roommates, although they live in the same home address, are not considered in the same household. Moreover, adult siblings (e.g. two siblings that are both adults that happen to be roommating in the same house) would not be considered in the same household as well. The general rule of thumb for "same family unit" is: if the family requires just one stewardship receipt, then they would generally be considered in the same family unit. If an individual in that family requires a separate receipt, then they would likely be a candidate as a "separate household".

Households must have one and only one person marked as the "head of household". Note that due to a lack of data, we may have individuals that are children with no data for the child's parents. If we have no data for their parents, but we have a home address, then the child would be in a single-person household and would be the "head of household". This would be changed once the parent information

For any other members of a household other then "head", the system will try and deduce the relationship to the head of household based on any declared family relationships. Otherwise, it will simply say "other" with the option for the user to explicitly specify the relationship using a text field.

There can only be one Head of Household.

Clicking on any of the names will take the user to the Screen 2.2, Screen 2.2.1, Screen 2.2.1.1 or Screen 2.2.2 for that individual, depending on the individual him/herself according to the rules detailed above.

**ChMS Main IA.graffle** Wed Feb 03 2010 Page 5 of 55

See Screen 2.2 for notes.

There may be several reasons why we have an individual that has no household information on file: They signed up at a ministry event using only an email address and/or phone number

- They sent in a tithe without any home address
- The individual is homeless and does not have a home address, only a contact address (e.g. a shelter and/or a PO Box)

Individuals without a household record on file and individuals with a household record on file are treated the exact same and have the exact same rules in the system.

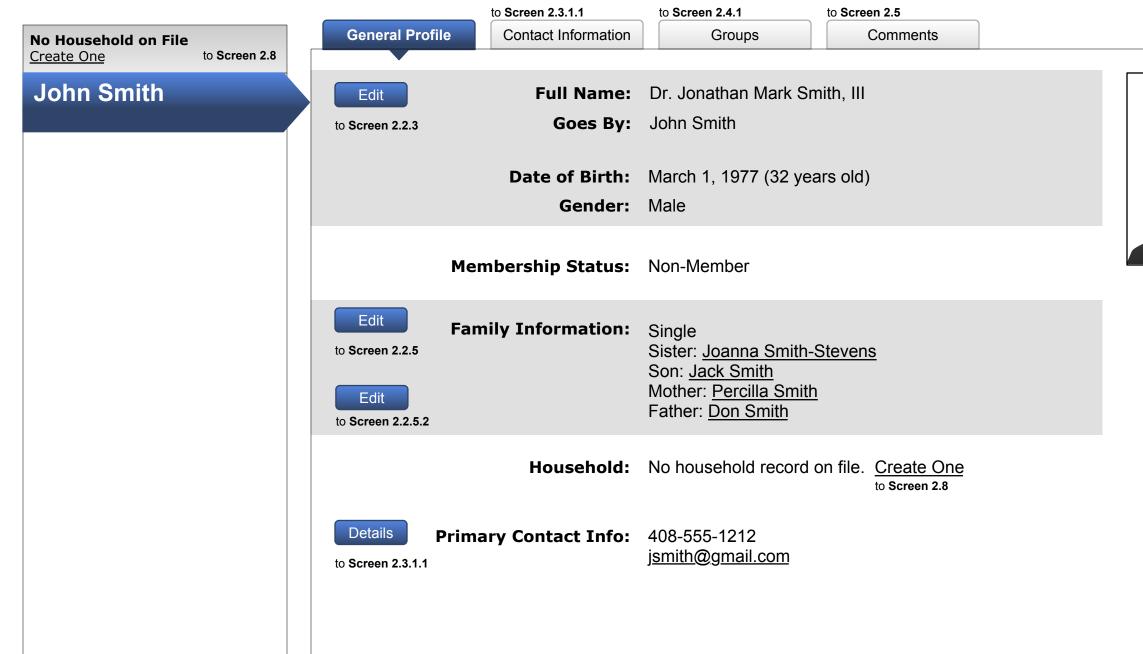

The only difference is that individuals without a household record on file can have a home phone associated with the individual. Otherwise, the home phone is normally associated with the household record.

Ask Oom: Do we track stewardship for Individuals with no household / home address on file? How do we do that?

**ALCF** Church Management System

#### Edit an Individual – General Information

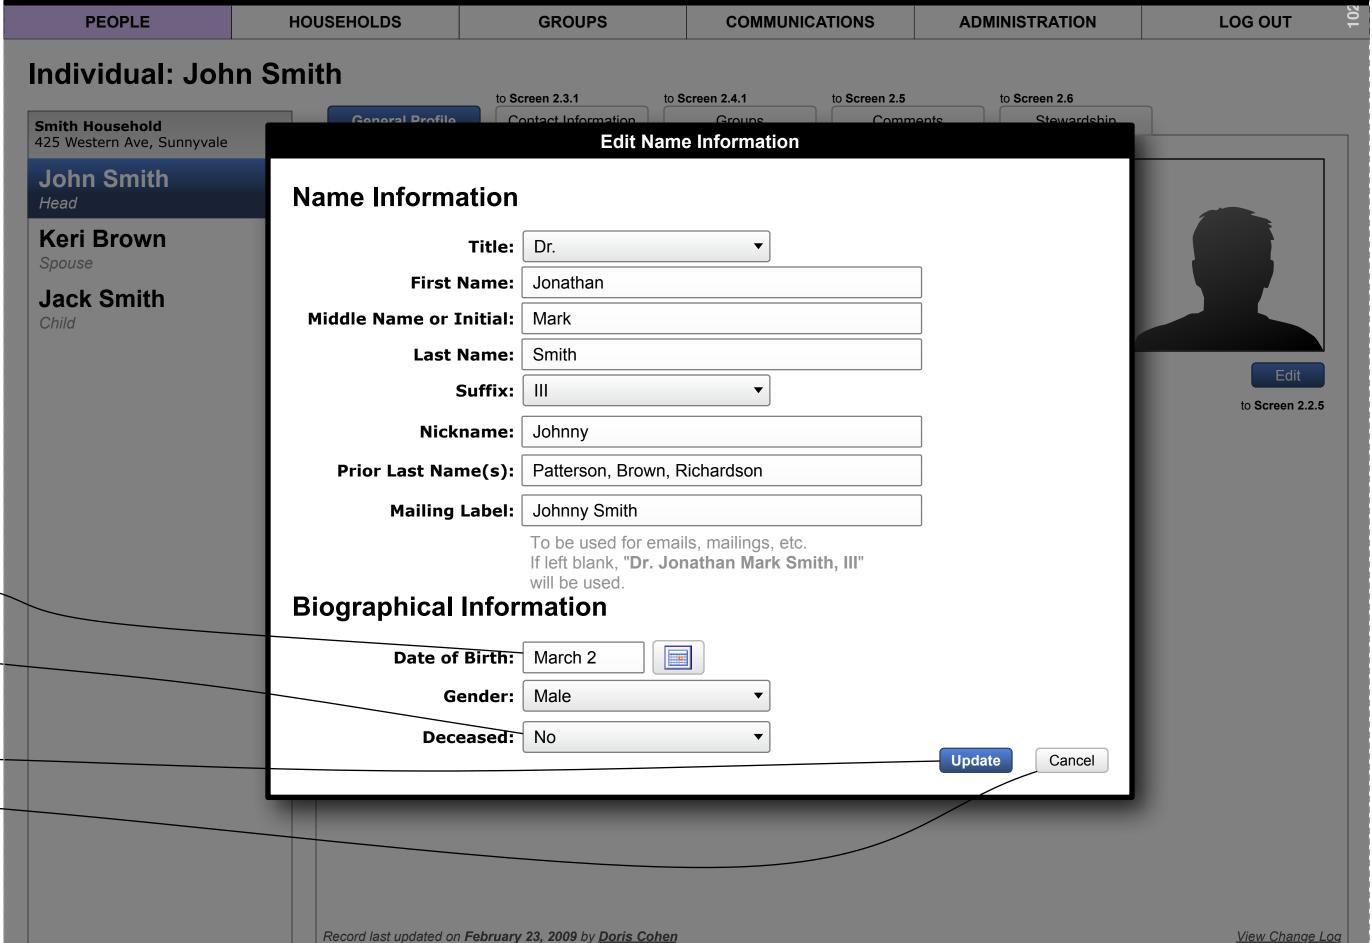

This screen allows a user to edit an individual's General Information, including name, church status, DOB and gender.

Date of Birth allows the user to enter in either just a Month/Day combination OR a full Month/Day/Year combination.

If "Deceased" is "Yes", then an added textbox will appear where the user can enter in optional data on the date deceased.

**Update** will save the form data and then close the window (taking the user back to where he or she came from).

**Cancel** will simply close the window (taking the user back to where he or she came from) without saving anything to the database.

#### ALCF Church Management System IA Membership Subsystem 2.2.4 Edit Individual, Membership Information

Edit an Individual – Membership Information

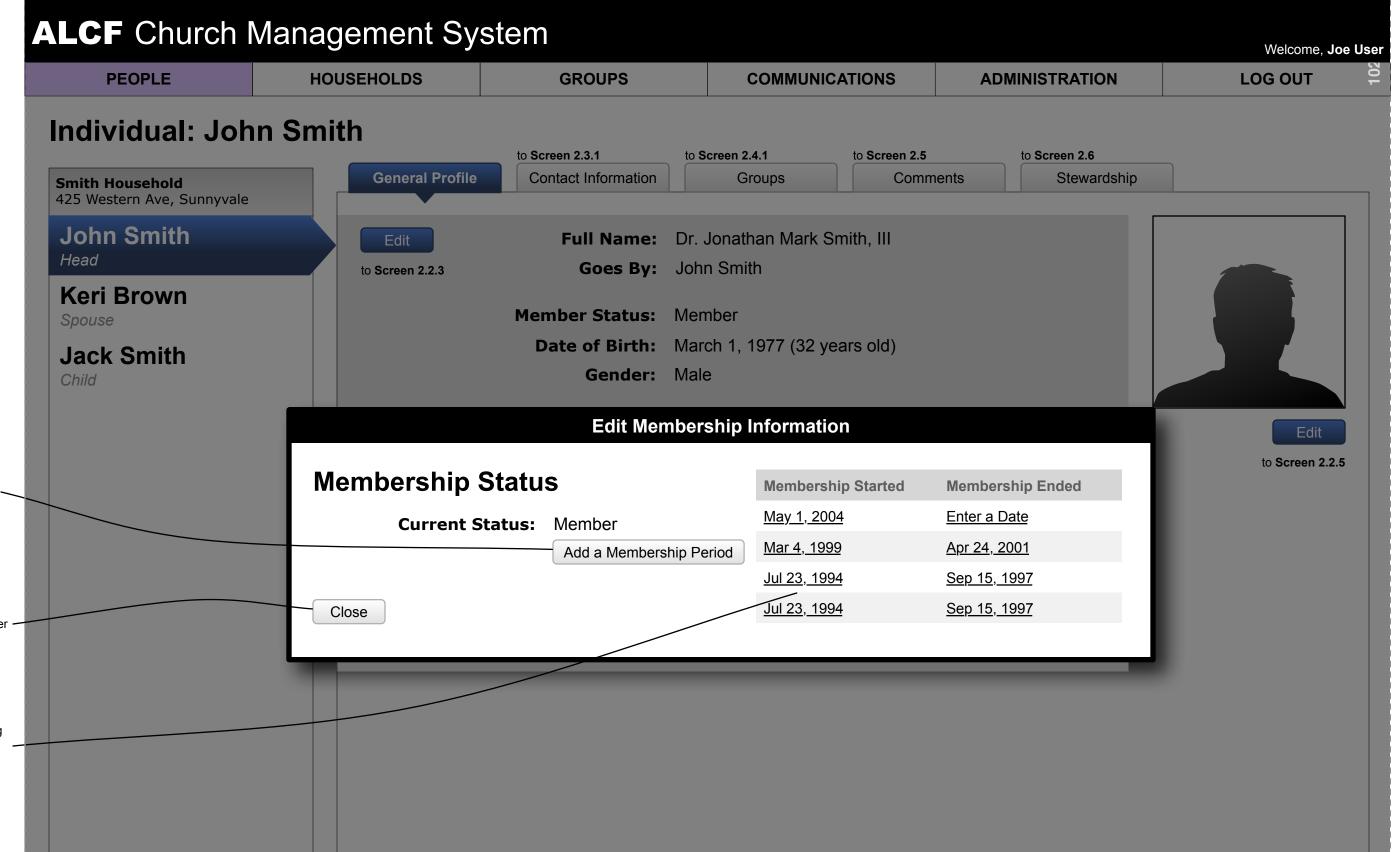

This screen allows a user to edit an individual's Membership Information.

Note that the actual Membership Status is calculated based on the start and end date of an individual's membership period.

Only if the Individual is currently **not** a member, a "Add a Membership Period" button will be visible. - This button will go to the dialog box on **Screen 2.2.4.1**.

Close will simply close the window (taking the user back to where he or she came from).

Clicking on any of the dates will change the dialog box to what is seen in **Screen 2.2.4.1** 

Record last updated on February 23, 2009 by Doris Cohen

**ALCF** Church Management System

#### Edit an Individual – Membership Dates

This screen allows a user to edit the dates for an individual's specific membership (or in adding a new membership).

The "Start" date is required. The "End" date is only required if we are editing an old membership and there is a current, active membership in place. Otherwise, it is not required.

If we are entering a new membership or editing the current membership, the title will be updated to reflect that.

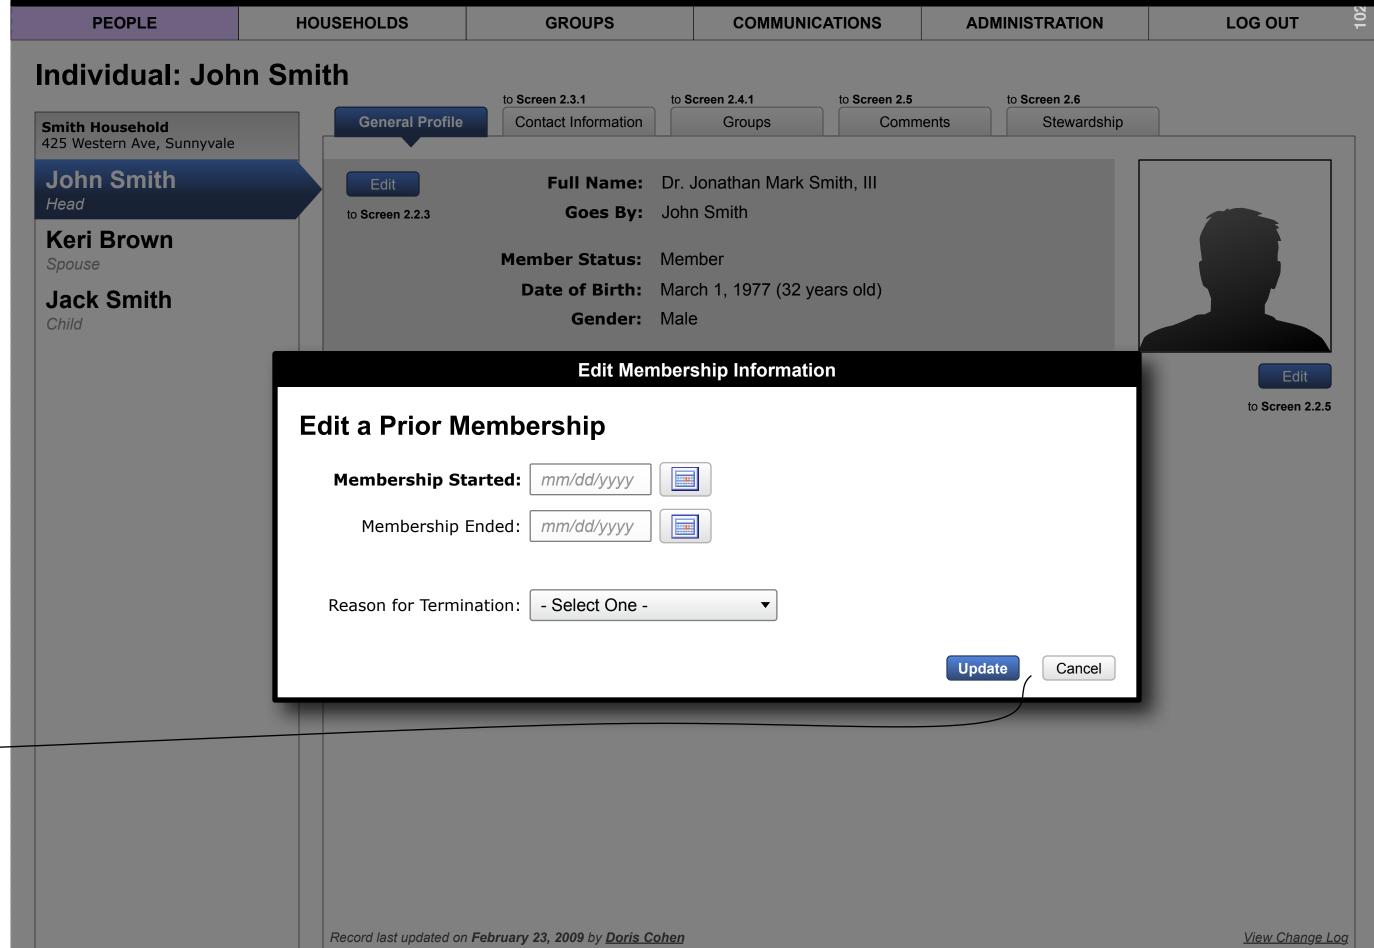

If entering a **Membership Ended** date, then **Reason for Termination** will appear with the following options:

- Moved out of the area
- Deceased
- Other

If selecting "Other", an additional textbox will appear allowing the user to enter in more information.

This list of reasons is managed by the ChMS Administrator.

Both buttons take us back to the dialog box in **Screen 2.2.4** 

**ALCF** Church Management System

#### Edit an Individual – Marriage Information

This screen allows a user to edit an individual's marriage information.

Note that adding or editing a relationship will change it "both ways".

So if the user edit's "John" and specifies that "Keri" is John's wife, then Keri's record will automatically show John as Keri's husband.

Married Status contains the following options:

- Single
- Married
- Separated

If a "Married To" name is entered, that name **must** be associated with an actual database record for that Individual.

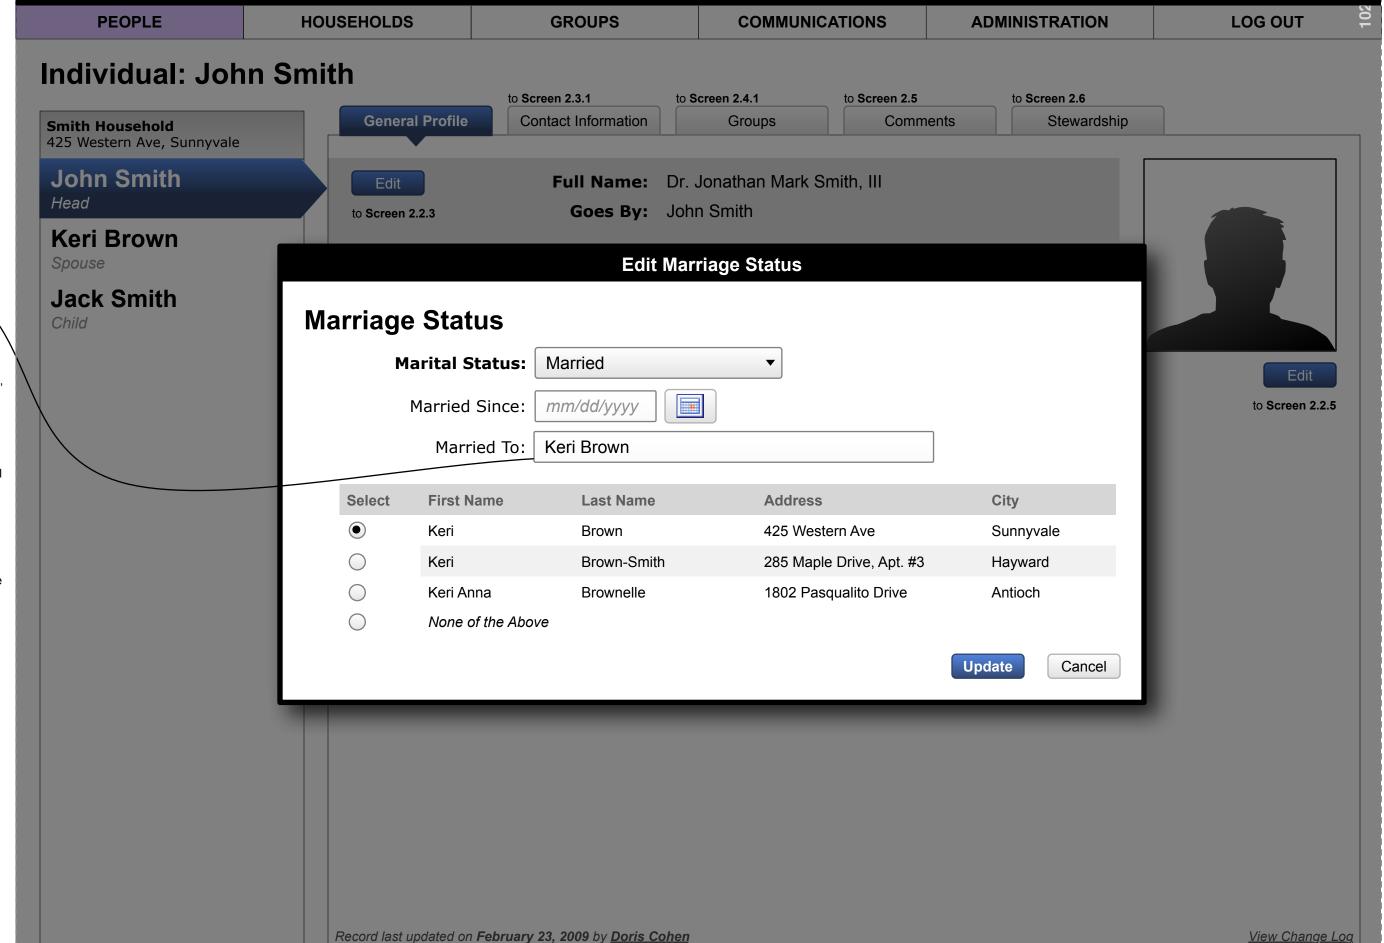

Therefore, changing the name will refresh the datagrid of individuals. If a name is entered, the individual **must** be selected — if "None" is selected, then the user will be prompted "Create a new database record for 'Keri Brown' as a new Individual?" The user must either specify "Yes" or must enter in another name to find the Individual's record in the database.

If a new individual is created, then the individual will automatically be added to this person's household. If an existing individual is selected, then the user will be prompted "Combine household data into a single household?"

If attempting to defined a marriage relationship with an individual that is already married to someone else, the system will alert the user that the marriage relationship cannot be defined, and the user will need to manually resolve the issue.

**Update** will save the data and then close the window (taking the user back to where he or she came from).

Close will simply close the window (taking the user back to where he or she came from) without saving anything to the database.

Note that adding or editing a relationship will change it "both ways".

So if the user edit's "Chris" and specifies that "Joanne" is Chris's sister, then Joanne's record will automatically show Chris as Joanne's brother.

Grey area will only appear when editing an existing family relationship, or when creating a new one.

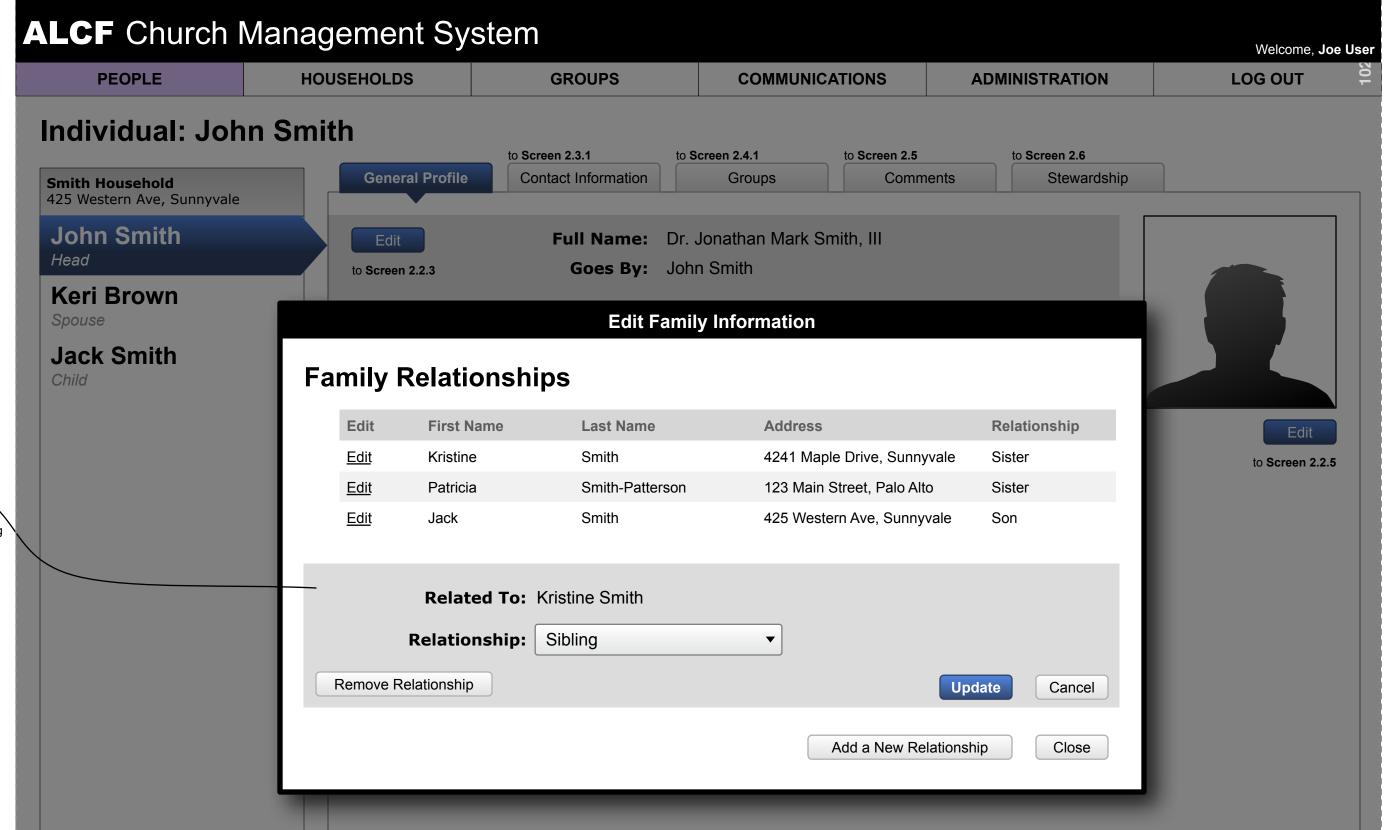

The relationship drop down consists of the following options:

- Sibling
- Parent
- Child

Extended family relationships (aunt / uncle, cousin, mother-in-law, etc.) can be deduced by the system in future versions, but are never explicitly defined by the user.

Clicking on **Add a New Relationship** will first prompt the user for the related individual's name information. The system will then do a sound-ex based duplication search and prompt the user to select "an existing individual from the list" or will have the option to "create as a new individual" – a similar process to how individuals are selected in the rest of the system.

**Close** close the window (taking the user back to where he or she came from).

Record last updated on February 23, 2009 by Doris Cohen

**ALCF** Church Management System

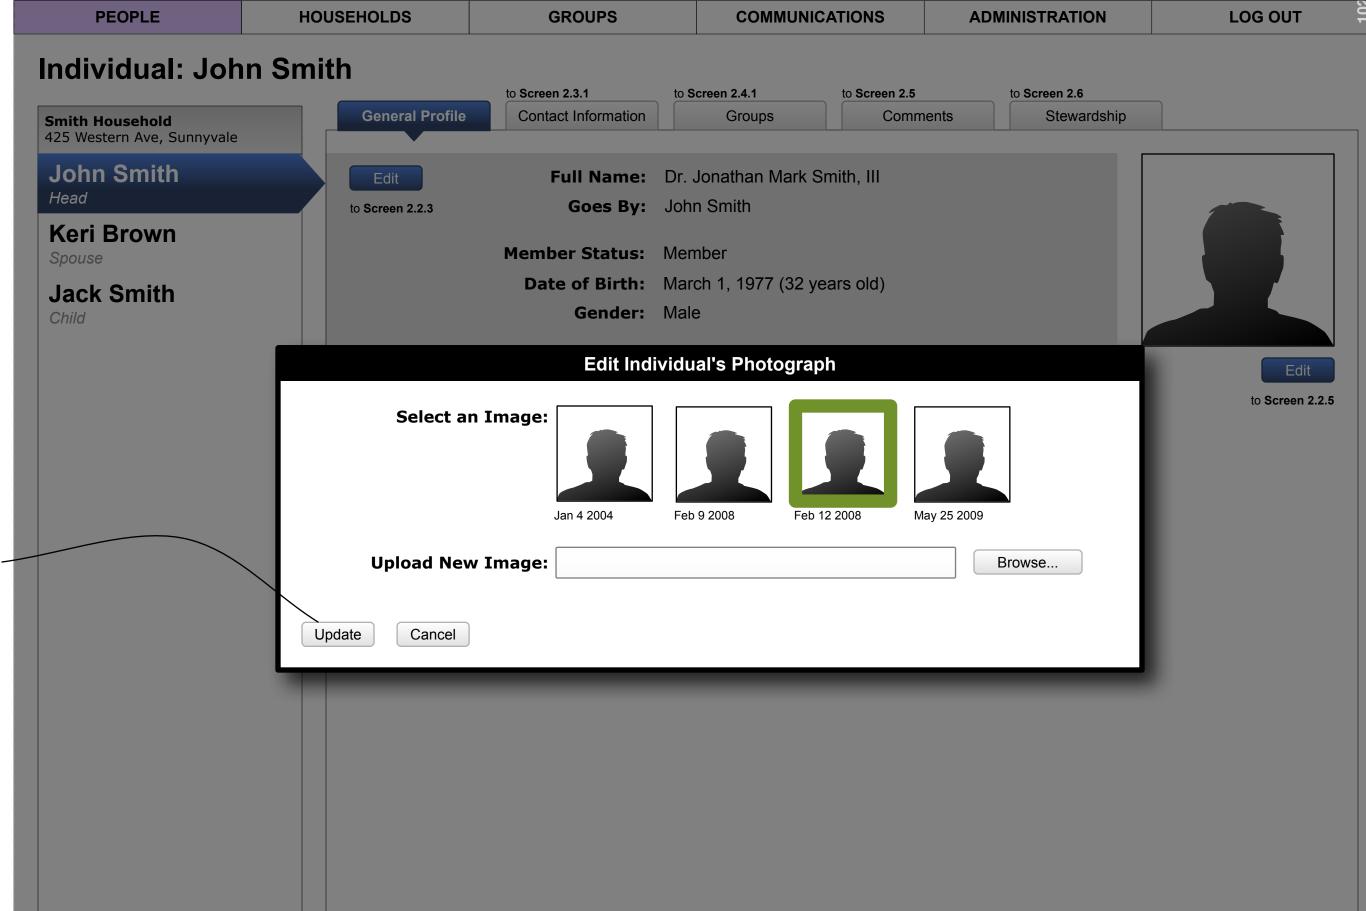

#### Edit an Individual – Photograph

This screen allows a user to edit an individual's photograph. The user can either select one from a set of previously loaded images, or the user can upload a new one.

Dates listed are the dates the photo was uploaded to the system.

window (taking the user back to where he or she came from) .

View an Individual - Contact Information Tab Household

This screen shows all the various contact informations for this Individual, both through his/her household (e.g. home phone and home address) as well as individual contact information (e.g. business phone and business address, email, etc.)

The Add New button is used to add a new current home address for the household — in essence, it's to be used when the household is reporting a move

Clicking on any of the addresses allows the user to edit the address information -- but it's primarily to be used to edit/fix mistakes. If a new address is to be reported (e.g. due to a move), the **Add New** button should be used instead, so that old/historic home address information can be kept in the system.

Clicking on any address or the Add New button will redirect the user to Screen 2.3.2.

Clicking on **Set as Current** will simply relabel the address as the "Current Home" address. Any "Current Home" address will be set as a Previous

For multi-person households, changes will apply to all members of the household.

Clicking on any address in "other addresses" or the Add New button will redirect the user to Screen

Address Types for "other addresses" can be:

- Current Work
- Previous Work
- Previous Home (only for individuals who are in at least one multi-person household)
- Temporary

Clicking on non-home telephone or the **Add New** button will redirect the user to Screen 2.3.4.

Note: for members that are part of a household, the only way to edit/add/remove a Home phone is to go through the "Home Address and Phone for the Smith Household" at the top of the page (e.g. through Screen 2.3.2)

Telephone Types for "Phone Information" can be:

- Home (only editable via Screen 2.3.2)
- Mobile
- Work

Other

Only one phone can be set as "Primary".

Clicking on email address or the Add New button will redirect the user to Screen 2.3.5.

Clicking on any "Other Contact" or the Add New button will redirect the user to Screen 2.3.6

Note: Addresses will either have up to four "address" lines and/or can support international addresses, institutions, military addresses, etc.

ALCF Church Management System IA Membership Subsystem 2.3.2 Edit Individual, Household Address and Phone

Edit an Individual – Household Address and Phone

This dialog box allows the user to add a new or edit an existing Household home address and phone. This is to be used by all individuals, regardless of household status.

If the individual is in just one, single-person household, then the dialog box title would say "Edit Individual Home Address and Phone".

Options are:

• Current Home Address

Previous Home Address

....

If this address being edited is either new or not current, and if the user selects this to be a Current Home Address, upon clicking **Update** the user will first be warned "You are about to save a new Current Home Address. This will set the current home address to being a "previous home address". Are you sure you want to continue?"

If the address being edited is current, then the Current/Previous drop-down and the Delete button are both grayed-out.

Clicking **Add Another** adds another blank "Alternate Home Phone" textbox to appear.

Clicking **Update** will save the record, while Delete will delete the record. The **Update**, **Delete** and **Cancel** buttons will close the window, redirecting the user back to **Screen 2.3.1**.

ALCF Church Management System IA Membership Subsystem 2.4.2 Edit Individual, Ministry Participation, Add

Edit Individual — Ministry Participation (Add)

This dialog box is to be used when creating a new ministry participation.

Clicking on any Group for groups that can have members explicitly assigned to it (e.g. regular groups, growth groups and ad hoc groups) will take the user to **Screen 2.4.3**. For groups that can not have members explicitly assigned to it (e.g. smart groups and category groups), a pop up error message will be displayed explaining why.

Clicking on Cancel will close the dialog box, essentially taking the user to **Screen 2.4.1**.

to Screen 2.9

Welcome, Joe User

This screen shows all the staff, general and pastor comments for this individual.

There are three levels of comment privacy:
• Confidential – can only be viewed by pastors and executive staff members

• Staff Comments – can be viewed by any ALCF staff member

 General Comments – can be viewed by anyone with access to the ChMS, including lay ministry leaders

List of categories can be edited by the ChMS Administrator and will include categories like:

- Membership
- Ministry Involvement
- Benevolence
- Other

"Posted By" filter will only list the names of users who have posted a comment on this individual.

"Privacy Level" filter will be any of the levels of comment privacy that this user is allowed to see.

"Edit" is only available for comments that the user has actually entered — no one is able to edit a comment that they didn't enter. Clicking on "Edit" brings up a similar dialog box to that in **Screen**

ALCF Church Management System IA Membership Subsystem 2.5.1 Edit Individual, Comments

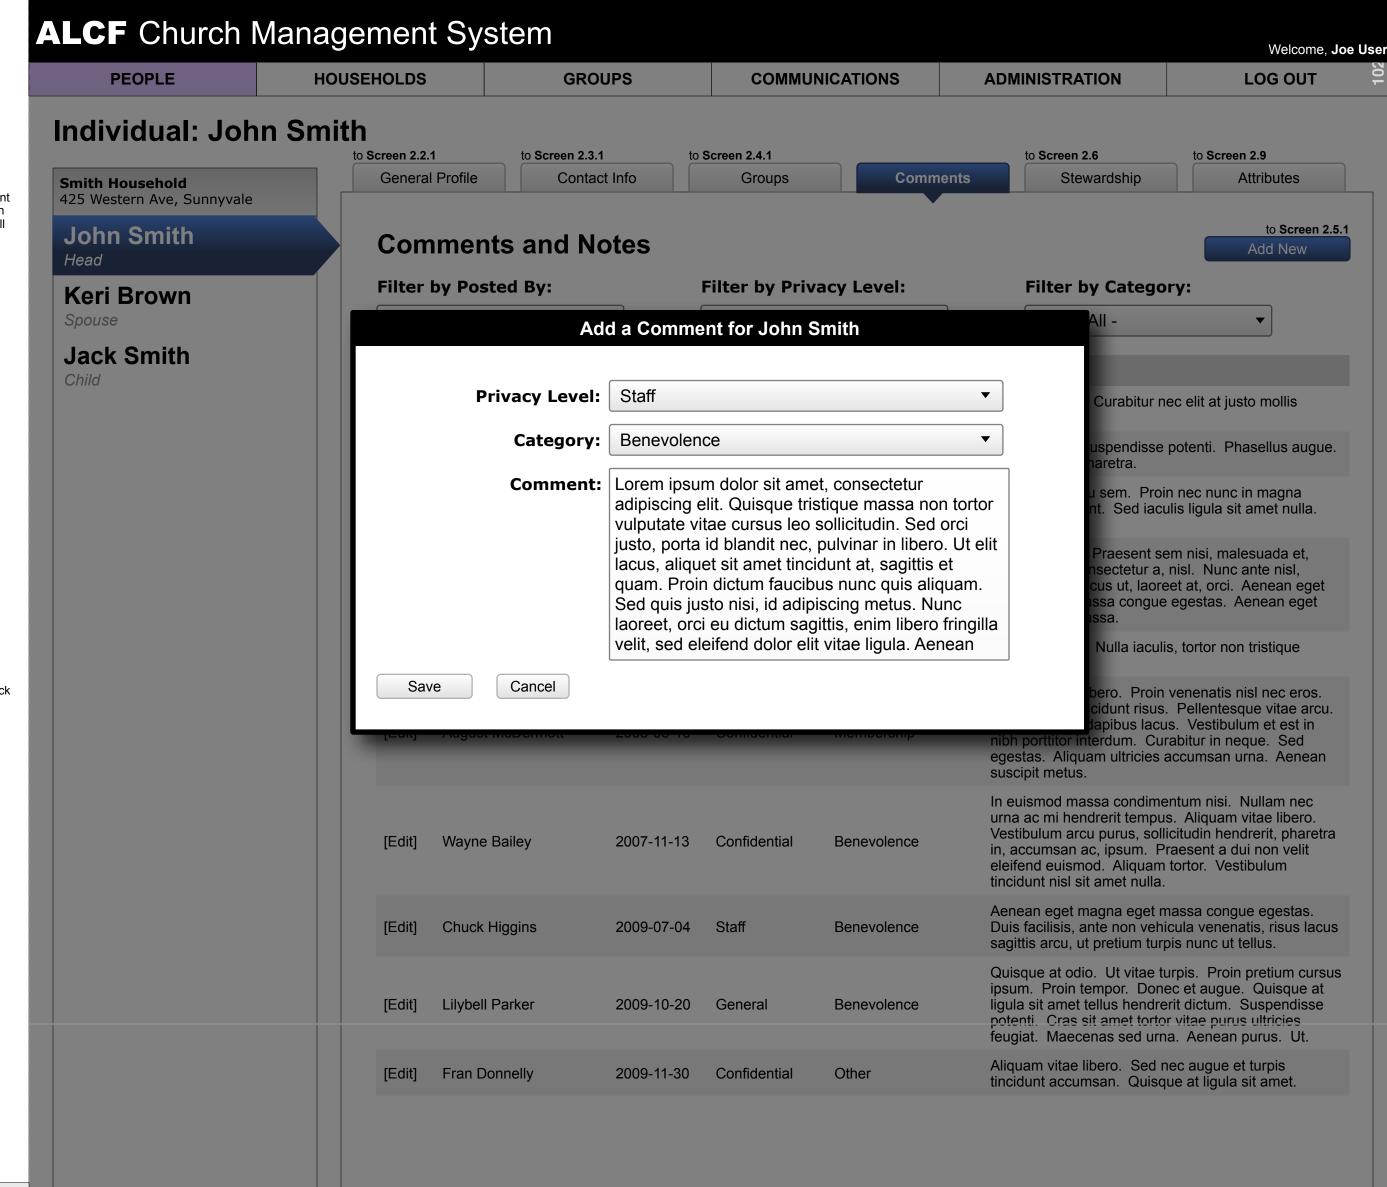

Edit an Individual - Comments

This dialog box allows the user to create a new comment, or to edit one of the user's existing comments.

A user can only edit his/her own comment.

**Privacy Level** dropdown is limited to the comment types that the user is allowed to see. See Screen 2.5 for more information on **Privacy Level** as well as **Category**.

After hitting Save or Cancel, the user is taken back to **Screen 2.5**.

to Screen 2.9

✓ View contributions by

all household members

#### View an Individual - Stewardship

The entire Stewardship section (e.g. everything under 2.6.x including this 2.6 screen) can only be viewed by folks in the Stewardship team. There will be a special permission that is required in order for a user to be able to view anything in this section.

Every stewardship item must be associated with one and only one person. Reports (e.g. reports that can be mailed out to the individual) can be run against individuals or against households.

Date Range includes things like "View All", "Year to Date", "Month to Date", etc. See any program like Quicken for an example of date ranges to use.

Funds can be one of the following:

- Tithes/Offering
- Building Fund
- Specific to a Given Ministry
- Scholarship to a Given Event
- Support for a given individual or cause

List of specific ministries, events, and individuals or causes can be edited by anyone in the Stewardship committee in the Administration section. See Screen ?.? for more information.

In addition to the set list above, individual campaigns and additional funds can be created by anyone in the Stewardship Committee. Examples of additional funds include: Imagine Campaign

Transaction Types can be one of the following:

- Cash
- Check (needs a check #) Credit Card (Online)
- Credit Card (Recurring)
- Corporate Match (Pre-Taxed) Corporate Match (Post-Taxed)
- Stock Donation
- Car/Automobile

Note that any pre-tax Corporate Match contribution should NOT be calculated in receipts used for taxdeductible purposes.

All transactions also have an internal "notes" or "comments" type of field, which can be edited and viewed only by folks in the Stewardship committee.

Clicking on any Check # will pop up a graphic with the check image. See dialog box in **Screen 2.6.2** for more information.

Clicking on any Date will pop up a dialog box similar to that in Screen 2.6.1 allowing the user to edit or even delete the transaction.

#### Questions:

 Do we need to deal with Anonymous contributions? How are those to be handled? Do we ever need to "flag" a given transaction (to

be looked into at a later time)?

ALCF Church Management System IA Membership Subsystem 2.7.1 Merge Individuals, Reconcile Data

Merge Individuals, Reconcile Data

The second step in merging two individuals records together is to reconcile all disparate pieces of data for both individuals. The system will automatically include any data points that are the same on both individual records. For any data points that are different, the user will need to manually select which record is the "right" one, if any.

Note that comments, stewardship data, group and communications list membership, email addresses, and other contact info (e.g. AIM, Twitter, etc.) will automatically be merged, saving all non-duplicate records.

**TODO**: Other things to consider include Name, stewardship data, group/ministry participation, contact lists, etc.

#### ALCF Church Management System IA Membership Subsystem 2.9 View an Individual, Attributes

### View an Individual – Attributes

Attributes are any other fields that ministries or other users may want to track for an individual, including things like:

- Date Accepted Christ
- Date of Baptism
- Spiritual Gifts
- Vocational Gifts
- Baptized at ALCF? Previous Church Membership

Each attribute can only by entered in once. But attributes can be edited.

Attribute "Types" include:

- Date
- Date w/ Year Optional
- Strict Dropdown (Single-Select)
- Flexible Dropdown (Single-Select) Strict Dropdown (Multiple-Select)
- Flexible Dropdown (Multiple-Select)
- Text
- Checkbox (e.g. a aimple "Yes" or "No")
- The system is intended to be completely extensible -- new attribute fields can be added relatively easily by the ChMS Administrator.

Any of the **Edit** buttons will take the user to **Screen**

#### ALCF Church Management System IA Membership Subsystem 3.1 Search Households

#### Search for a Household

This allows the user to search for an a specific household in the ChMS.

A household is a family unit that lives in the same address.

Note that roommates (e.g. two friends living in the same apartment) do NOT constitute a single household. If both roommates are single, they would both be in two distinct one-person households that happen to have the same address

Households must have at least one individual in it.

Individuals may be part of multiple households.

Link will take the user to **Screen 3.2** for that

# **ALCF** Church Management System

Edit Household - Split Households

This will cause the current household to be split into

Note that the head of the current household must stay in this household. Only non-head household members can be split off.

All shared "previous home address" information will be copied over to the new household, and from this point forward they will be managed independently

The new address will be saved as the current home address for the new household. The current home address will be saved as a previous home address for the new household.

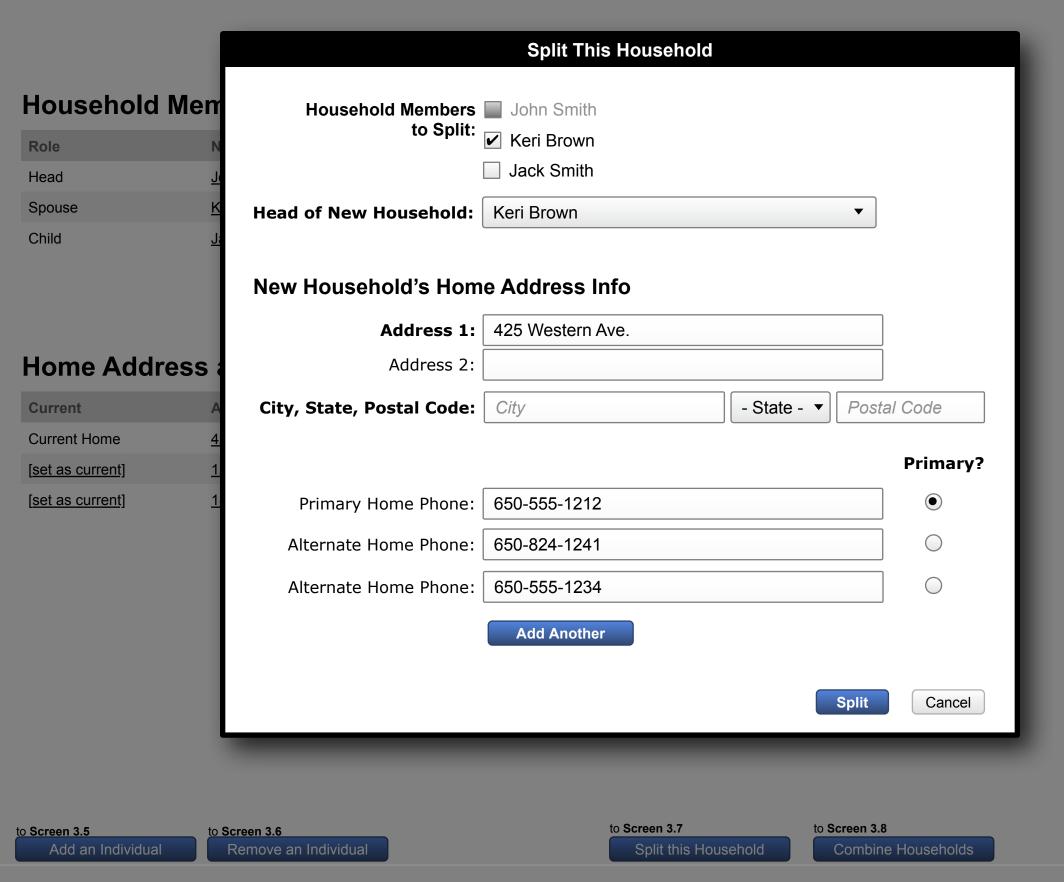

Current home address information for this household will remain unchanged.

After hitting "Split", the dialog box will close, redirecting the user to Screen 3.2 for the old household. However, as a convenience a notice of the split will appear at the top of **Screen 3.2** for 2 weeks, with a link to "the other household".

# **ALCF** Church Management System

**PEOPLE HOUSEHOLDS GROUPS COMMUNICATIONS ADMINISTRATION LOG OUT** 

#### **Household: John Smith Household**

Page 44 of 55

This allow two households to be combined, e.g. due to a marriage or changed family/living arrangement. The two households will be combined into a single,

Note that this should be specifically used when two actual households are being combined in real life. This is **not** to be used to attempt to merge/fix duplicate household records in the database. To merge/fix duplicate records, that should be done at the individual level. See Screen 2.7 for more on

Any matching "previous home address" data will be combined together. Any non-matching "previous home address" data will be reassigned to the individual instead of the household. The "current home address" information will become a "previous home address" for each individual in the household being merged in.

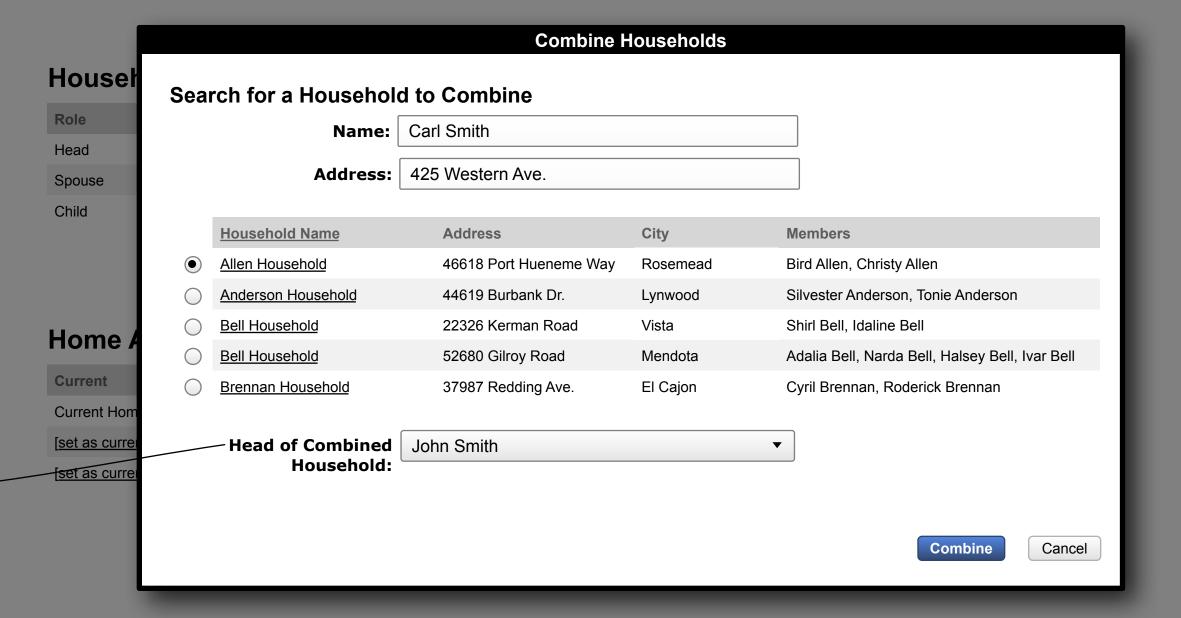

After hitting "Merge", the dialog box will close, redirecting the user to **Screen 3.2** for the combined household. If there is any old "Recently Split from..." messaging on either household, that will no longer appear.

The only available choices are the Head of either merged household.

Welcome, Joe User

Groups provide the ability to organize individuals into groups or organizational units. Groups can either be for specific tasks or events (e.g. "Worship Team", "Marriage Retreat 2010 Attendee", etc.), or they can be a ministry in and of itself (e.g. "OASIS", "Real World", etc.).

Groups must belong to at least one or more ministry which oversees the management of the

Groups can have an email alias (e.g. realworld@groups.alcf.net) as well as one or more individuals (e.g. staff member, lay leader, etc.) who moderates and manages the email alias. Email options for each group can be one of the following: \* **Announce Only** – only moderators and users affiliated with this ministry is allowed to send

- \* **Private List** only members of the group can send messages to the list
- \* Public List anyone can send messages to the

These are the following "Types" of groups: \* Ad Hoc – these are self-service groups that need to be further-defined.

- \* Category see below for more information \* Growth - these are Growth Groups, which has a host, a facilitator, and a structure type (e.g. Young Adult, Regular, Spanish Speaking, etc.)
- \* **Regular** these groups are for everything else \* Smart – these groups cannot have individuals manually added or removed to it, but instead its membership is defined by rules (e.g. "any individual who is listed as a facilitator of a Growth Group")

To help with the organization of groups, groups can have a category, and categories can be nested. Note that categories, in and of themselves, cannot have individual members assigned to it. However, categories can also have email aliases (e.g. safarikids@groups.alcf.net) where the message would be sent out to the distinct set of individuals who are part of any group that belongs to the "Safari Kids" category.

Normally, any groups that an individual is part of will be listed in the individual's profile page on **Screen 2.4.1**. However, if a specific group is marked as "Confidential", the individual's membership will NOT be made known to any user not affiliated with the ministry that the group is part of.

Any logged-in user can view the membership of any non-confidential group. For confidential groups, only users affiliated with the ministry of that group can view the membership.

Only users affiliated with the ministry of a group can edit the membership, name, categorization and other properties of a given group. They are also the only ones who can create new groups and view/edit roles for the ministry.
